1. Aaron

Program Name: Aaron.java   Input File: None

In computer science class Aaron has learned some basic output techniques and has been asked to produce the following output, which requires no input. Please help him achieve this task by writing a program for it.

```
` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` ` `
_____
^^^^^^^^^^^^^^^^^^
]]]]]]]]]]]]]]]]]]]
\\\\\\\\\\\\\\\\\\
 [[[[[[[[[[[[[[[[[
```

Input: None

Output: The six lines of output as shown above, the first consisting of twenty-one tilde characters (`` ` ``), the next line twenty underscore symbols, then a row of caret symbols, followed by some right square brackets, backslashes, and finally a row of left square brackets. All of these characters can be found on the keyboard.
